ISLMA STRATEGIC PLAN 2013-2018

PROCESS

In 2007, the Illinois School Library Information Association recognized the importance of planning; therefore, the Association established a task force consisting of three elected ISLMA officers, an employee, a system consultant, a university liaison and instructor, a non-member librarian, as well as two ISLMA member librarians. The original plan was driven by trends extrapolated from the membership survey.

In 2013, the ISLMA Board created a Strategic Plan Revision Task Force consisting of two board members, the interim executive secretary, the newsletter editor, and an ISLMA member to update the current plan. The ISLMA Board will use this Plan as a framework for developing its activities and initiatives during the next five years.
